Portland, Oregon

Work Experience

- 07/19 – 06/20** **Senior Software Engineer** for **Acorns** • *Portland, Oregon*
- Led a team of 2 other backend engineers in the design and implementation of Spend Recurring Deposits, a top-priority greenfield project now responsible for transactions totaling over \$6 million per month
 - Abstracted the scheduling and execution of recurring transfers into a new architecture consisting of a GraphQL API and Serverless Framework-powered Lambda backend — designed to scale to millions of scheduled events and capable of managing the process for all product lines
 - Improved logging and visibility into a previously opaque monolith responsible for managing over 1 million IRA accounts — expanding its metrics dashboard from displaying just CPU and memory usage to exposing full metrics suites for GraphQL, 3rd party API performance, database performance, and batch job success rates
 - Represented my team on a committee responsible for directing the development of CI/CD tooling
- 05/18 – 07/19** **Software Engineer** for **Acorns** • *Portland, Oregon*
- Built out a new microservice to support the Local Found Money feature of the Acorns Spend product
 - Migrated cross-system investment synchronization stream processor from a monolithic backend into a new serverless architecture
- 06/17 – 05/18** **Software Engineer** for **Harmonic** • *Beaverton, Oregon*
- 06/16 – 12/16** **Software Engineer Intern** for **Harmonic** • *Beaverton, Oregon*
- 03/15 – 07/15** **Product Validation Engineer Intern** for **Daimler** • *Portland, Oregon*

Technical Experience

- Programming Languages** Proficient in **Scala, Kotlin, Typescript, Node**
Basic knowledge of **Java, Python, Bash, Ruby**
- Tools/Libraries** Proficient in **Git, Docker, Serverless Framework, Mockito, Guice**
Basic knowledge of **GraphQL, JOOQ, Maven, SBT, JUnit**
- Databases** Proficient in both SQL (**PostgreSQL**) and NoSQL (**DynamoDB**)
- Platforms** Proficient in **AWS, Datadog, CircleCI**

Education

- 2012 – 2017** **B.Sc. Computer Engineering; Minor: Computer Science** from
Oregon State University • *Corvallis, Oregon*
- Graduated *magna cum laude* (3.79 / 4.0 GPA)
